February 9, 1996

For: *EXTENDED RANGE MOTOR VEHICLE HAVING
AMBIENT POLLUTANT PROCESSING*

Commissioner of Patents and Trademarks
 Washington, D.C. 20231

PRELIMINARY AMENDMENT

Sir:

Prior to examination, please make the following amendments in the application:

In the claims

Please add the following claims:

23. In combination in a motor vehicle having an internal combustion engine:
 an open loop system for processing ambient air pollutants;
 said open loop system for processing ambient air pollutants comprising an electrically powered system for processing ambient air pollutants funneled to a catalytic converter.

24. The combination according to claim 23 wherein said electrically powered system utilizes surplus electrical power generated by said motor vehicle.
